- Bonded warehouse: 5,000 square meters
- Bonded yard: 10,000 square meters
- Forklift : 04 Units

1. Project / Heavy Lift / Oil & Gas / Energy Cargoes Handling

Our Project Department together with our back-up organizations will provide services on a Nationwide and Worldwide basis, including all labor, supervision, technical and professional assistance, supplies and equipment to perform following functions:

- Meeting with customer's representative and designated suppliers to review the materials and equipment to be transported and discuss all technical requirements.
- Setting up project master files by Purchase Order Number and establishing the logistics of transport on the whole.
- Auditing the Purchase Order Number to determine the cargo (hazardous, heavy lift/oversize, fragile, high value, refrigerated etc.) and checking delivery schedules, method of transport, special transport requirements, costs verification and documentation requirements of each order.
- Contacting sellers well in advance to obtain date of readiness and all relevant cargo details.
- Evaluating the necessity of providing expediting services on cargoes.
- Nominating vessels/aircraft and booking cargo with ocean and air carriers.
- Issuing shipping instructions to suppliers, transport agencies and other as appropriate, naming port of export, vessel's name, scheduled loading and cut-off dates.
- Tracing and expediting shipments as necessary during the inland shipping phase including filing letters of protest to inland-carriers in case of visible damages as well as issuing over-, short-, and damage reports.
- Cross-checking arrival notices and warehouse receipts with relevant commercial invoices.
- Processing consular documents, customs invoices and letters of correction in accordance with prevailing regulation.
- Preparing and processing ocean Bills of Lading and/or Airway Bills of Lading.
- Auditing carrier's freight bills for correct rates, weight and measurement.
- Assisting for and supervision of loading and unloading of cargo.
- Timely preparation and dispatch of documentation for pre-clearance at destination. Electronic transfer of pertinent data is available.
- Investigating the possibilities of establishing a customs bonded facility for intermediate storage of materials until required to be clear through customs.
- Providing or arranging for a contractor at destination to perform customs clearance and final delivery to job-site. Providing technical and engineering services for the placing of heavy lift items on to foundations.
- Performing and other services which can reasonably be expected to ensure the prompt and efficient freight forwarding from seller's workshops (worldwide) to final destinations.
- Provide up-to-date information with regard to:
 - New services and other changes,
 - Technological changes in the transport industry, which may lead to more convenient or economical transport services.

MEMBER & GLOBAL PARTNERS

Cuchi Shipping Company plus +1,000 Oversea Partners All Over the World

Cuchi Shipping Company has passed strict entry procedures and has been awarded a member of many famous Networks like: PLA-Project Logistics Alliance, WCA-World Cargo Network-PROJECT, PCN-Project Cargo Network, WFN-World Freight Network, FIATA (please see details below). This means that we have been connected to more than 1,000 Global Offices, each of whom has extensive knowledge of their local market.

Our advantage are each of the +1,000 oversea Partners are managed by a privately owned companies, so they can focus 100% on adapting and adjusting to specific request, unlike many multinational transport Companies who are restricted by rigid policies and procedures.

Cuchi Shipping Company and their fellow Networks members have created a strong partnership in order to provide not only unrivalled personal service, but at the very competitive price.
